

News From Your TOWN HALL

Miss Louise Taylor, of Galax, Va., and formerly with Royal's is to be the Assistant Town Clerk and Office Factotum of the Town Works. She is taking the place of Miss Ratley.

T. L. (Smiley) Williams has been employed as an additional member of the police force.

Because one Club did not have the recommendation for a membership of the Price Panel, the official appointment of a three-man Price Panel by the Mayor and Commissioners will be delayed until next Wednesday.

The plan originating with the Local Price Board and the Mayor is to have the Town Commission appoint the three members with the advice and recommendation of the Legion, Lions and Rotary.

This Panel will in turn ask that officials appoint five or more associate members whose duties will be with particular locations or types of merchandise.

South Bay and Lake Harbor will each be asked to designate someone for appointment to this Panel.

Certain visiting Brass Bands from the Public Health Service and other Bureaus were taken for a visit to the quarters and given an opportunity to see for themselves just what the Community and particularly the Town is doing in an attempt to improve the health conditions here.

Rather caustic remarks springing from erroneous reports and bureaucratic arrogance were retracted and official eyes opened, it is reported, by inspection guided by the Mayor.

Sunday School Has Meeting

The Community Methodist Sunday School Board held its first meeting of the year, at the home of Mr. and Mrs. George Royal Tuesday night.

Mr. Royal is the newly elected Sunday school superintendent.

Plans were discussed by the group to purchase new song books for the church also a nursery class for children under three years, is being formed. Mrs. Royal was chosen Cradle Roll superintendent and arrangements are being made for a separate class and teacher for each age group.

Mr. Royal extended a welcome to the families in the community who are not attending Sunday School, and pointed out that there is work for every person who is interested.

The next meeting will be held at the home of Rev. and Mrs. Jay O. Janssen at the parsonage.

Refreshments were served at the conclusion of the business session.

Those present were Mr. and Mrs. Milton Campbell, Margaret Campbell, Mrs. N. T. Taylor, Louise Taylor, Mrs. James Weirgo, Rev. and Mrs. Janssen, Miss Louise Hollingsworth and Miss J. Brasley.

Plea For Mutual Understanding Made By Health Group Mgr.

Mr. Ferguson, Business Manager of the Migratory Health Associations of the Southeast, discussed the working of various health associations organized to care for migratory farm labor since the building of the Migratory labor camps, before the Rotary Friday.

The speaker pointed out that five of the major camps are located in this community, and the regulations suggested by the importation of foreign labor, sometimes make it difficult for the local people to understand the basis of action will result.

His forthrightness and unfettered discussions led to a favorable impression on his hearers.

The War Aint Over! We Still Need Paper

Scoutmaster Frank Miller and assistant Norman Hayslip came to the logical conclusion that since the government needs waste paper, and certain people are paying good money for equipment, why not let the Scouts collect the paper, sell it and provide money from their own efforts to purchase camping equipment and other needs of any Scout Troop.

The question of trucks was solved by local farmers agreeing to allow the use of trucks free of charge on needed occasions; the man problem was solved by the Scouts themselves—they'd do the work. A purchaser was found in Miami. Everything was hunky dory; the money's in the bag. Figuring that each householder recognizes his own duty to the war effort, it was assumed that instructions about tying each type of paper separately would be followed.

Here's what happened last Saturday which was a publicly advertised and planned collection day. Three trucks were available; fifteen boys were needed (three to each truck) to make the thing work smoothly.

A Sunday school picnic was scheduled for last Saturday and of course no boy is going to miss a picnic; there was a football game at Stuart Friday night and some of the boys stayed up late and had to catch up on the sleep Saturday—so, only five boys showed up Saturday and they worked until 6:30 doing all they could.

Then, some of the places called at had all kinds of papers mixed together, which slowed up everything. You are asked to take the time to separate the cardboard from the newspapers as well as the magazines as your contribution to the war effort.

In desperation and not to let the community down on its record of war cooperation, as well as to get what few dollars the Scout can, it has been decided to allow you to leave your paper at the Scout hut, and it will be arranged to have boys there to pick it up and handle it until the truck goes to Miami to sell it.

A truck is going down Saturday to carry the paper already collected; the boys who get along will be carried to the beach and allowed to swim and enjoy after their own best.

Help your own boys to help themselves and HELP THE WAR EFFORT.

High School Classes Elect Year's Officers

During the past week the Junior High and High School class met and organized for the current year electing officers as follows:

Wardens—President, B. Q. Waddell; Vice President, Walter Stiehl; Secretary, Mary Catherine Knight; Treasurer, Beverly Smith.

8th Grade—President, Geraldine Draa; Vice President, Kenneth Harris; Secretary, Lou Powell; Treasurer, Kenneth Bass.

7th Grade—President, Floyd Bland; Vice President, Eason Pate; Secretary, Daphne Schreiber; Treasurer, Virgil Jones.

Woman's Club Opens Season

The Woman's Club of Belle Glade opened its seventh season with a meeting at the community clubhouse Wednesday afternoon. The speaker was the president of the club over the routine business session when Mrs. Blandford, treasurer, reported a balance on hand of \$17.31 after having purchased two \$100 war bonds and one \$25 one.

Mrs. Hubert Chambers, well-known chairman, reported having bought groceries for a needy family during the summer and also having taken clothes to the laundry.

Rams Show Ole Fight-Team Work And Know How

Winning Combinations In Backfield Supported By A Hard Hitting Line

After taking Stuart last Friday night to the tune of 26 to 0 the football team brushed off the "B" team of West Palm Beach in a scrimmage during the week 51 to 0. In a scrimmage with WPB all sorts of combinations were used to beat the squad had an opportunity to play and all tried a position other than his regular one.

All of this is leading up to the game with Galt here this afternoon, and the boys are confident that they can take the measure of the ex-catholics from Miami.

Cherry, Lutz, Wedgworth and Bearden as a working unit in the backfield, handled the ball well, close the plays with some discretion and give promise of becoming well known throughout high school circles in this part of the state.

Blocking by the line is no small asset to the boys carrying the ball, and opening the holes where they are supposed to give the fleet footed boys a chance to get going. Tackling by tagging the opponent doesn't stop him; a loving excess around the neck is not very effective either and this year's line is showing marked improvement in both tackling and blocking.

The backfield have not appeared butterfingering in handling the ball, and have run "heads up" most of the time. Deception has played its part effectively with the backfield, well, we haven't found any of it too late for the opposition to do much about it.

Gest will be lucky, say the boys, if they get away with a 2-0 defeat, because the boys want to more than return a defeat of last year.

As for that our boys have a lot of "kisses of defeat" to return and they are "chomping at the bit" to get at it. They promise to have a good fight, and a good cheering crowd Friday afternoon will add a lot to that determination.

Come out and cheer for the RAMS; if you can't holler, BE THERE ANYWAY.

Prevailing Wage Rates Recommended By Board

At a called meeting of the Palm Beach County Farm Labor Advisory Committee Friday afternoon at the City Hall, Belle Glade, recommendations as to prevailing rates were made after hearing twelve farmers testify as to wages being paid on a total of 6,900 farm acres.

Present were: L. L. Chastain and Floyd Erickson, the Committee, recommended wages as follows: colored tractor drivers, 50c per hour; colored common labor, 45c per hour; colored women common labor, 40c per hour. Some farmers pay on a day basis but the average farmer, the committee found, are as above.

FIRE PREVENTION WEEK OCTOBER 8 to 15

ANY FIRE DEPARTMENT IS AN ASSET

IS BELLE GLADE'S DEPARTMENT AVERAGE, OR BETTER?

The answer is YES—It's distinctively BETTER!

WHY? In 1943, rates on residences were reduced approximately 50 per cent and other reductions have been made BECAUSE OF LOW FIRE LOSS.

CAN IT BE IMPROVED? YES—BY AN ENFORCEABLE BUILDING CODE, ZONING ORDINANCE, RESTRICTIONS WITH INSPECTIONS AGAINST FIRE HAZARDS, AND OWNER COOPERATION.

LAWRENCE WILL is the DADDY of your fire department, its only CHIEF, and leader in BERSHIP, with a day and a night paid fireman on the job.

Florida Fire Colleges and a great number of his volunteers have gone! special classes taught by Assistant Chief Larabee of West Palm Beach have been given locally as well as first aid classes; civilian defense classes for auxiliary firemen, white and black have been completed; various classes concerned with the mechanical equipment have been given.

In 1939 an economy plan by Lauderdale enabled the Town to purchase at a 25 per cent discount a 750 gallon storage pumper, and the water works department in Quartermaster school, pumping from canals and wells around town, as was the case until '37 when the first water tower and hydrants were installed.

The volunteers drill every other week with instruction by the Chief or visiting experienced firemen in fire fighting technique.

By barbecues, dances, plays and carnivals, and their own pockets, the members of the Department purchased needed personal equipment as well as a Respiator for use on downed.

The district was organized to care for State and School Board property.

Chief Guy B. Bender says: "May we take this opportunity during National Fire Prevention Week to call to the attention of owners and lessees of Everglades land the urgent need to use extreme caution in the prevention of fires from occupation of the land."

Everglades Fire Control

The Everglades Fire Control District is the same as the Everglades Drainage District; it is controlled by a Board of Commissioners, serving without pay and operated by a Chief under whom County Fire Warden operate.

It is unlawful to set any fire in the District without first obtaining a permit from the Chief, the Chief may require you to pay your own expense to burn or remove any fire hazard.

The Chief and his Warden have police powers to enforce the laws, with or without warrants, and all enforcement officers and prosecuting officers are duty bound to help.

The District headquarters are in Belle Glade, and they own and operate 21 pieces of fire fighting equipment; radio telephone connections with field equipment as well as all road patrolmen to insure quick transmission of reports of fires.

Last year there were issued 1265 permits; there were 722 fires answered and of these 384 were in Palm Beach County.

Town Commission Take Steps To Remedy The Parking Congestion

Country Club Members To Have Pot Luck Eats On Saturday Night

The membership of the Country Club at the Everglades will have an annual meeting for the election of officers and directors Saturday night after a potluck supper is enjoyed.

If the book organ won't work, the Clubs Own Musicians—Pop, Neal and Little Doe—will probably make jive for those who wish to dance after the business meeting.

All officers are to be elected and two or three members of the Board of Directors.

Before Saturday night a membership Committee is attempting to get all members in good standing by collecting all or some part of the current dues.

All members will be notified by mail of the meeting, but an attempt is to be made to have as large attendance as possible.

There can be no turning from the "straight and narrow"—that is Fifth Street, from Avenue A to Avenue E. When loaded, the truck must proceed south along Fifth to Avenue E, where it may turn either east or west. No turning may be made off Fifth before Avenue E is reached.

No loading may be made for two blocks on either side of Fifth Street.

The west side of Fifth is reserved for pickups and cars, for those who gather only a few loads, or are made off Fifth, the gathering of trucks full across the street.

For each stall, a truck owner must pay \$5.00 per month; and the stalls cannot be engaged and then not used.

Fifth street is under strict regulation and police surveillance from five to nine each morning, while the prescribed rules are effective.

For many years, this has been a problem to the Town, to the farmer, slowed up loading, encouraged unbecomingly bidding between a moving picture show and generally amused and benefited the picker to the financial loss of the farmer. This has been a major contributing factor to unusual, unjustified, unbecomingly, unmatched and out-of-reason prices paid to bean pickers.

Ordinance Provides For Strict Rules From 5 a. m. To 9 a. m. In Quarters

Because of the troublesome condition created by farmers' trucks loading field hands and pickers in the early morning, and on account of the congestion, possibility of arguments and disturbance, the Town Commission has passed an ordinance providing for the parking of trucks on the east side of Fifth Street, which is the main thoroughfare through the quarters, in stalls to be rented by truck owners.

There can be no turning from the "straight and narrow"—that is Fifth Street, from Avenue A to Avenue E. When loaded, the truck must proceed south along Fifth to Avenue E, where it may turn either east or west. No turning may be made off Fifth before Avenue E is reached.

European V-Day Is Considered By OPA And Food Dealers

All perishable agricultural products which are in normal or surplus supply and whose price is free March 31, 1945, higher than present OPA ceilings, should be withdrawn from price control immediately following V-Day in Europe, it was recommended this week in Washington by 26 national food leaders, one of whom was Luther L. Child, chairman of the Florida Vegetable Committee.

FOR YOUR CAR, TOO!

You can give your car the same protection against wear that the Army gives many of its "Jeeps", tanks and other vehicles. Just see your nearby Sinclair Dealer. He has Sinclair lubricants of the same quality used by the U. S. Army.

To save wear on your engine, ask for Sinclair Opaline Motor Oil. Opaline stands up better and lasts longer because it is de-waxed and de-jellied. Have your Sinclair Dealer drain and refill your crankcase with Opaline every 1,000 miles.

America's greatest hillbilly comedian and former star of WCM Grand Ole Opry, Nashville, Tenn., Cousin Wilbur and other former Grand Ole Opry Stars, including the popular Blue Bird recording artist, Pete Pyle and his Mississippi Valley Boys and Girls, appear in the nationally famous Hillbilly

Jamboree Show which will give a one night stand engagement in Pahoecoe on Tuesday, October 10th.

The show will be presented in a mammoth waterproof tent and will be located near the city hall. Doors to the big tent will open at 7 p. m. and the performance will start promptly at 8:15 p. m. Popular prices will prevail.

FBI Needs Women In Its Washington Office

R. G. Danner, Special Agent in Charge of the Miami office, Federal Bureau of Investigation, says that the FBI again needs clerical help in its Identification Division in Washington, D. C. Director J. Edgar Hoover has a set policy against female operatives and the last one left soon after she became Director of the Federal Bureau of Investigation. Nevertheless, more than half the entire personnel of the FBI at the present is female, and although no kidnapper or murderer has been hired into a trap by female employees of their detection. A "G-woman" expert in hand-

writing mailed the writer of a "Heil, Hitler" letter. Another who files "Wanted" poster recognized a man she had met in an Army Canteen as a Canadian deserter. Still another solved a murder by analysis of the blood and dirt on the uniform of a soldier suspect. Women are working on telephone switchboards and teletypes using code which the FBI claims is the only unbreakable code in the world. Others are busy as cryptographers, photographers, fingerprint experts, document examiners and toxicologists. The need now is mostly for clerical employees whether they possess experience or not; however, they must be high school graduates. These jobs are not full of thrills and glamour. Women who take them must not expect to plunge into the business

of crime detection, but they will be cogs in a tremendously important and interesting machine. New employees, many, if they so desire, live in Government-operated residence halls at a cost of from \$16.50 to \$24.50 per month per person. The working hours for these positions are from 8:00 a. m. to 4:30 p. m., six days a week with a salary of \$1,732 per year. Inquiry regarding these positions should be immediately directed to R. G. Danner, Special Agent in Charge, Federal Bureau of Investigation, Post Office Box 4261, Miami, Fla.

Lady GI's To Receive Schooling After War

An increased interest in the WAVES on the part of the Navy men whose wives are eligible to enter the service has been noted here by Navy recruiters.

Chief Specialist J. H. Carter, in charge of the Navy Recruiting Station, 207 Post Office Bldg., West Palm Beach, attributes this tendency to the provisions of the recently passed "G. I. Bill of Rights" which confers benefits on persons with veterans' status.

"Many far-sighted men in the service today," he stated, "realize that a young couple each of whom has an honorable discharge from the service, will have an intangible asset for the rest of their lives, an asset which it would be impossible to buy."

He explained that the pay of a third class petty officer in the WAVES is equivalent to a salary of \$50 per week in a civilian job and that the post-war educational benefits alone has a value of approximately \$1,000 to the young woman who joins the Navy.

Full information of the WAVES it was added, may be had by calling at the Navy Recruiting Station in the West Palm Beach

PIANOS

Just unloaded another car load of nice clean medium sized UPRIGHT PIANOS. These instruments were individually selected and all are of well known makes. The finish on many of them can scarcely be told from new. The actions are first class and the keys clean and white. Included were several fine self players and we have all the new tunes on player rolls for them. These Pianos can be purchased at a fraction of their original cost. Terms if desired.

Ingenuous devices for alarms were used before a regular siren was installed. A letter from Superintendent Granger of the Prison Farm in 1939 says: "I do not think any paid depart-

ment could have beat your record time in getting this fire under control, because fifteen minutes from the time I called you over the phone you had the fire under perfect control."
A check for \$100 was sent along with this letter which made the complimentary re-

ring on land anywhere in the Everglades.

The seriousness of Everglades fires need not be pointed out to old timers as they have seen and know only too well how their land and especially their dikes and ditches have been wholly destroyed by the vast fires occurring from careless-ness, either by discarding burnin' cigarettes or attempting to clear by burning without first taking the necessary precaution by plowing a fire guard around the area to be burned.

New lands in the Everglades are readily being developed and it is especially the new owners of these lands that we make this appeal.

Before starting a fire or attempting to clear land by burnin', get in touch with our office in the Sanders Building, Belle Glade, or contact the Fire Warden for Palm Beach County at Palhokee and we will gladly advise and assist you in your fire control problem."

the right to reinstate suspended ceiling orders when there is evidence the situation is getting out of control.

Chandler and his associates from all parts of the nation had been invited to the three-day OPA conference in their capacity of experienced practitioners whose counsel and advice might, in OPA judgment, be most likely to help plot the agency's course during its reconversion from a wartime economy to one of peace.

The group also adopted a forthright attitude toward subsidies, making it clearly understood that the food industry is "opposed to subsidies, but realizes that some may have to remain for a while."

The executive committee of the Florida Vegetable Committee is meeting with Chairman

Loring Raoul in Sarasota this week to receive first-hand and detailed information from Mr. Chandler pertaining to the V-Day deliberations at ashington.

Team Play

Every man on the team is necessary; every man can't carry the ball, but he can make it possible for the other fellow to carry it by doing his part. It's necessary to plan in football, as in every day efforts, and it's necessary to work with your teammates in football and in business.

Discipline

High School football players are taught to follow the rules of training, the rules of the game, consideration for the opponent—all most necessary in later life for success in any undertaking.

Self discipline is necessary every day throughout life—that's a lesson worth the four year effort of High School.

FARRAR NEWBERRY
President, Woodmen of the World Life Insurance Society, 1 Omaha, Neb. Sept. 25—Farrar Newberry, President of the Woodmen of the World Life Insurance Society of Omaha, today was elected president of the National Fraternal Congress at its 58th annual conference in St. Louis. He had served as its vice president during the past year.

"I strongly feel the need of a great renaissance of fraternal activity," Mr. Newberry said in accepting the presidency of the Congress which is composed of 109 fraternal insurance societies. He urged great activity by local lodges to prepare for the return of the men and women now serving in the armed forces.

"While we drill our teams and train our local officers in ritualism, let's program the local lodge effort along lines of service to the local community," Mr. Newberry said. "Let's be sure that when the men and women who have defended liberty and fraternity on the battlefield come home, they will find a place of welcome and the facilities for peacetime service in our local lodges."

The new Fraternal Congress president is a native of Gordon, Ark., and an alumnus of Arkansas Methodist College and Vanderbilt University of Arkansas, and a year's law practice, he has been active in the fraternal insurance field with the Woodmen of the World Life In-

surance Society for thirty years.

Serving first as a field representative, he was later head council and Arkansas state manager for the Woodmen of the World. He became a national director of the society in 1932 and was in charge of field work at the Society's headquarters in Omaha from 1935 to 1937 when he was elected national secretary. He was elected president of the Woodmen of the World in March, 1943.

During his residence in Omaha, he has been a leader in civic activities. He was elected president of the Omaha Chamber of Commerce this week. He also is a director of the Greater Omaha Association, Omaha Community Chest, United War and Community Fund, and Covered Wagon Council, Boy Scouts and is a regent of the Municipal University of Omaha.

Under the name "Armed Forces Master Records," an anonymous individual has donated more than 10,000 phonograph records to the Coast Guard, to be shipped to bases all over the world.

The first lighthouse erected in America (in 1716) is located in Boston harbor and is still in active service. It is one of approximately 50,000 aids to navigation maintained by the U. S. Coast Guard.

Nature Favors the SOUTH!

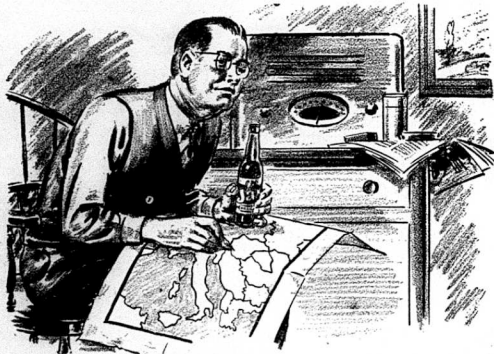

...And of all the South's great assets none is of more importance than its native born population.

Intelligent, reasonable and quick to learn, southern workers have made invaluable contributions to the industrial development and general economic advancement of the area. Lower living costs due to mild climate, plus willing workers, gives the

South basic advantages in manpower.

The Seaboard Railway salutes its fellow workers of the South. The Seaboard, itself a vital factor in the development of the area, is planning and working with communities served by its line for a more prosperous Southland.

BEER OUGHT TO BE TIMELY, TOO

Like the latest communiques and the last stock market quotations, Beer is better when it's up-to-the-minute... fresh from careful aging in the brewing vats.

That's one of the many reasons JAX is a better beer. Long ago, the makers of JAX decided to limit the area served... so that JAX could reach you at its flavor-pinnacle. That's why your glass of JAX has so much vim and sparkle, so much snappy goodness!

And that's why your bottle of JAX is so reasonably priced—there's no need to charge "premium-prices" to make up for long-distance shipping costs.

Yes, timeliness does count! It means... better beer at no extra cost. When you say "Make Mine JAX!" there's a mellow, friendly echo that answers "You can't buy better beer no matter what you pay!"

Say **JAX** BEER
THE DRINK OF FRIENDSHIP

Say JAX!
you can't buy
better beer
at any price!
